

## **Bavarian State Ministry of the Interior awards contract to NSSLGlobal GmbH to strengthen the state's critical communications infrastructure**

TUESDAY 14<sup>TH</sup> FEBRUARY

2023 - Through a public tender process, the Bavarian State **Bayerisches Staatsministerium des Innern, für Sport und Integration**

Ministry of the Interior, Sports and Integration has awarded NSSLGlobal GmbH a contract to provide mobile satellite and radio communications with 24/7 support. In addition, the Bavarian government, police, firefighting schools, counties, independent cities and special-purpose associations for fire and rescue services are entitled to order products and services from this framework agreement. This contract with NSSLGlobal GmbH services will help strengthen the communications infrastructure of the Free State of Bavaria by providing the resources and support needed to ensure the state's public institutions can operate with critical communications, especially during emergencies and disaster relief.

"We are pleased that NSSLGlobal GmbH has been awarded this contract by the Ministry, owing to our extensive experience in providing critical satellite communications solutions, services and technologies. We have invested heavily in the development of our IT management services and INSIGHT, our interactive customer portal, which provides unparalleled user customization and allows for instant access to airtime, billing, connectivity and service status," said Henrik Christensen, CEO of NSSLGlobal Continental Europe.
